

History of the Computer

Name: _____ Period: _____

History Matching

Items may be used more than once

1. ____ First Computations?
 2. ____ Abacus
 3. ____ John Napier
 4. ____ William Schickard
 5. ____ William Oughtred
 6. ____ Blaise Pascal
 7. ____ Gottfried Leibniz
 8. ____ Joseph-Marie Jacquard
 9. ____ Charles Babbage
 10. ____ Lady Ada Lovelace
 11. ____ George Boole
 12. ____ Herman Hollerith
 13. ____ Nikola Tesla
 14. ____ William Burroughs
 15. ____ Vladimir Zworykin
 16. ____ Vannevar Bush
 17. ____ Konrad Zuse
 18. ____ George Stibitz
 19. ____ John Atanasoff
 20. ____ Clifford Berry
 21. ____ Howard Aiken
 22. ____ Grace Hopper
 23. ____ Alan Turing
 24. ____ John William Mauchly
 25. ____ J. Presper Eckert
- a. Alternating-Current (and an IMPRESSIVE coil)
 - b. Applied Boolean Algebra and invented computer logic
 - c. Calculating “Bones”
 - d. Chinese Mechanical calculator
 - e. Computability Test and Colossus
 - f. Difference Engine and Analytic Engine
 - g. ENIAC
 - h. First Mechanical Calculator
 - i. First Mechanical Calculator with Gears
 - j. Made And/Or/Not logic into an Algebra
 - k. Mark 1
 - l. Mechanical Calculator
 - m. Mechanical Calculator with Crank
 - n. Memex memory
 - o. Punch Cards for Census
 - p. Punched Cards for Silk
 - q. Slide Rule
 - r. Tally Marks
 - s. The ABC
 - t. The Monitor
 - u. The Printer
 - v. Z3
